From the desk of Secretary.....

A good quality education is one that fosters challenging academic environment, unrestrained scientific inquiry, critical thinking, innovation, and creativity. To meet these attributes, an institution needs to have dedicated and talented teachers, extracurricular and outreach activities, diversity in student body, great infrastructure and a wide range of courses. I am happy to observe an astounding amount of academic and service-oriented activity by dauntless and daring faculties, imbued with a spirit of inquiry, innovation, initiative, compassion, courage and commitment, which keep our campus abuzz, alive, and alight in an enveloping darkness caused by the raging pandemic. I believe that this Newsletter will serve as a window through which the complete profile of the academic and co-curricular activities, achievements and progress made during the stipulated period can be viewed. I feel a special sense of satisfaction to acknowledge, admire, and appreciate the inspired initiative taken by our conscientious Principal, sterling faculty members and vibrant students to bring out the glowing glimpses of the activities held between July and December 2021 in our College. While, I congratulate and appreciate all those who are in the forefront of this excellent endeavour, I also wish this valuable venture all success. I wish to appreciate and congratulate the Editorial team in bringing out its 34th issue of Newsletter of this academic year highlighting its quality enhancing initiatives and other activities organised by the College in the past few months.

Mr. L.M. Muneer Ahmed

From the desk of Principal.....

Islamiah College has registered many notable achievements with the passage of every semester through curricular, co-curricular, extra-curricular activities and infrastructure, contributing to all-around student development. This has been possible as we believe that it is our collective institutional responsibility to prepare our students for the challenges of the future. I shall always be extremely proud of all my students, faculty members, and staff who are working hard for making the institute a sanctum sanctorum for nurturing excellence. This issue comprises the events of all spheres occurred in Islamiah College during the period from July 2021 to Dec 2021. During these six months, our faculty members have attended a cumulative of 510 events held across the globe, 12 faculties enriched their professions by making them involved in various Faculty Development Programmes and 20 members have delivered 30 expert lectures across the nations. Our College has entered into three new MoUs with industries and institution. Our faculty members bagged six awards. Our students were deputed to various industries, institutions etc., for experiential learning. Our students have brought laurels to our institution with 20 prizes. Apart from the research activity with the publication of 25 papers, we have extended outreach programmes also. These activities obviously reveal that the Institution has broad diversity of its brainpower. At one end of the campus, we have significant academic programmes, coding their way to the top. On the other side, we have the research and development to produce budding scientists. And in between is a vibrant mix of intellectual progress in extension as well as social activities, sports, infrastructure etc. The wide-spectrum of academic, research and extension activities of various faculties gives me a sense of pride that faculty members, staff and students possess creative potential and original thinking in ample measures. I take this opportunity to thank all the stakeholders for showing interest and continuous support and I am sure the College will scale upto greater heights in the years to come and serve many more in the society. I wish to appreciate and congratulate the effort taken by the Editorial team for the publication of the 34th issue of Newsletter.

From the desk of Editor

It is with immense pleasure that we, on behalf of our College, present to you the next edition of College Newsletter. It is a matter of great pride and satisfaction to bring out the 34th issue (July 2021 to December 2021) of our College Newsletter which is a reflection of our variety of efforts to lead the institute in its all-around development. It is a repository of the significant activities carried out by Students, Faculty and Alumni in the areas of Teaching and Learning, Research and Extension, Industry Interaction and Examinations. The collaborative efforts between the faculty members and the students, and the guidelines of our Principal made this Newsletter publication successful. The editorial team remains grateful to the faculty members, staff, and students for providing materials and photographs for the Newsletter. While we have made a sincere effort, any error is deeply regretted. We look forward to your comments and suggestions!
